

Application No. 10/076,612  
Amendment dated February 15, 2005  
Reply to Office Action of November 16, 2004

#### REMARKS/ARGUMENTS

The Examiner indicated that claims 9-11, 14, 15, 24-26, 29 and 30 are objected to as being dependent upon a rejected base claim but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

In response, the applicant has elected to cancel, without prejudice, the rejected claims 7, 8, 12, 13, 22, 23, 27 and 29. In addition new claim 31 has been added which corresponds to original claim 9 in independent form. Accordingly claim 9 has been cancelled. Likewise, new claim 32 has been added and represents claim 14 in independent form. Some minor amendments were made to clarify references to the top and top opening of the smaller chamber. Accordingly original claim 14 has been cancelled. Claim 15 was amended to clarify references to another side wall of the smaller chamber. Claim 33 has been added and represents claim 24 in independent form. Accordingly original claim 24 had been cancelled. Finally, new claim 34 represents original claim 29 in independent form. Accordingly claim 29 has been cancelled. Claim 34 was amended to specify that the two side walls of the smaller chamber are integral with the bottom portion of the container (not the smaller chamber). Claim 34 was also amended to state that the smaller chamber (not the reservoir) has another side wall extending between said two side walls.

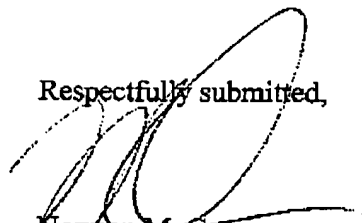

Amendments have been made to the remaining claims only where required so that they depend upon the new independent claims 31-34 instead of the respective allowable claims they replace.

It is believed accordingly that the application is allowable. Applicant reserves the right to file continuation and/or divisional application with respect to the cancelled or withdrawn claims.

Enclosed is a credit card form covering the fee for two more independent claim.
